ENVIRONMENTAL SPECIALIST IV

Opening Date: February 1, 2016	Closing Date: February 12, 2016
Location: Augusta	Position #: 08300-1865
Position Type: Permanent Full Time	Class Code: 9254
Grade/Salary: 26 \$44,616.00 - \$61,089.60	

The Department of Environmental Protection, Bureau of Remediation and Waste Management, is seeking to fill an Environmental Specialist IV vacancy in Augusta.

BRIEF JOB DESCRIPTION: This position will supervise the development of grant applications, licensing of oil terminal facilities, the development of oil spill reporting agreements and the processing of site location variance applications for above ground and underground oil storage facilities. The position will also recommend regulatory changes and participate in the promulgation process to amend the rules for marine terminals and waste oil management. The position will oversee the inspection, investigation and remediation of petroleum management and remedial sites. The position will also oversee the development of sensitive correspondence regarding licensing, enforcement and restoration planning activities. For more information, please contact Scott Whittier at (207) 287-7674.

MINIMUM QUALIFICATIONS: An eight (8) year combination of education and/or experience in environmental science or related area which includes at least two (2) years of supervisory or program management/administration experience. Qualifying education must include at least 15 credit hours of science or engineering coursework.

Preference will be given to candidates with the following skills and experience:

- Experience applying federal and state laws and rules concerning management of petroleum products;
- Experience leading the investigation and remediation of sites with petroleum contamination;
- Experience with petroleum management and distribution technologies;
- Experience working on Natural Resource Damage Assessments and Restoration Planning;
- Experience in oral and written communication of technical information to a wide variety of audiences;
- Experience working with multiple parties to develop and implement successful remediation and corrective action strategies;
- Experience with rule making and development of grant applications; and
- Experience communicating complex information in a wide range of settings.
